Execution is a skill that must be developed by building your organizational habits and harnessing the support of your colleagues. As the founder and CEO of Behance, a company on a mission to empower and organize the creative world, Belsky has studied the habits of especially productive individuals and teams across industries. Now he has compiled the principles and techniques they share, and presents a systematic approach to creative organization and productivity. While many of us focus on generating and searching for great ideas, Belsky shows why its better to develop the capacity to make ideas happen-a capacity that endures over time.
