Teaching Math as a Language

By Rodney Weems

Dog Ear Publishing, United States, 2008. Paperback. Book Condition: New. 272 x 208 mm. Language: English . Brand New Book ***** Print on Demand *****.In Teaching Math as a Language, author Rodney Weems explains how training students to use a simple, triangular map with eleven elements gives them the confidence and ability to solve ninety-five percent of all problems encountered in middle and high school. The map functions as a mathematical mnemonic that lowest-quartile students, in particular, gravitate towards with striking success. This practical, integrated approach to effective math instruction is aimed at new and mid-career teachers, including homeschool parents. Here are a few quotes from Teaching Math as a Language: It is remarkable that in most American secondary schools no consistent style of problem solving runs uniformly across the grades. The resulting inefficiencies are shameful, the myriad and often contradictory methods that students must struggle with frightening. The less adept the students, the higher the likelihood they will cling to the first procedures they are taught as the only procedures they comprehend and feel comfortable using. It becomes all the more imperative, then, that the first procedures they are taught carry a mirror of larger problems to come. [Emotional...
