This item is printed on demand - Print on Demand Neuware - Bachelor Thesis from the year 2014 in the subject Business economics - Supply, Production, Logistics, University for Development studies, course: Bsc Agribusiness management and finance, language: English, abstract: This study aimed at analyzing the benefits, cost and constraints of production of quality Shea butter in relation to production methods amongst processors in Tamale Metropolis. Specifically, it was to assess cost-benefits of production of quality butter. Secondly, to determine the factors that influences marketable quality butter. Lastly, to analyze the constraints to the production of quality marketable Shea butter. The study was conducted in 4 communities in Tamale Metropolis because these are the communities with abundant shea butter processors. A total of 80 respondents were interviewed with 20 respondents being selected from each of the communities using snowball sampling. The average costs, average revenues and profits were calculated on yearly basis. The study revealed that averagely individual processes 3 bags (90kg each) of Shea nuts in a week and this yield 3 units of shea butter which weighs 25kg each. This yields an average of 75kgs of...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
