

Chemical Structures 2: The International Language of Chemistry Proceedings of the Second International Conference, Leeuwenhorst Congress Center, Noordwijkerhout, the Netherlands, 3rd June to 7th June 1990

By -

Springer. Paperback. Book Condition: New. Paperback. 496 pages. Dimensions: 9.1in. x 6.1in. x 1.1in. This book constitutes the Proceedings of the second conference in the series Chemical Structures: The International Language of Chemistry which was held at Leeuwenhorst Congress Centre, Noordwijkerhout, in the Netherlands, between June 3 and June 7, 1990. The conference was jointly sponsored by the Chemical Structure Association; the American Chemical Society Division of Chemical Information; the Royal Netherlands Chemical Society; and the Chemical Information Groups of the Royal Society of Chemistry and the German Chemical Society. The purpose of the conference was to bring together experts and an international professional audience to discuss and to further basic and applied research and development in the processing, storage, retrieval, and use of chemical structures; to focus international attention on the importance of chemical information and the vital research being carried out in chemical information science; and to foster co operation among major chemical information organisations throughout the world. Subjects covered included structure-property correlations, spectral database systems, chemical nomenclature, generic structures, stereochemistry, substructure

Reviews

Absolutely essential read publication. it absolutely was writtern very completely and valuable. It is extremely difficult to leave it before concluding, once you begin to read the book.
