Building Profiles The Building Profiles presented in this report are representative constructions consisting of the following: A cross-sectional drawing Building science details Climate-specific details Field experience notes, and Material compatibility and substitutions. The Building Materials Property Table This table lists nearly 50 of the most common building materials with performance specifications, such as vapor permeability, that support the selection or the substitution of building materials based on building science and overall performance of the envelope system. The first two sets of guidance, Best Practices and Building Profiles, contain many links to other BSC technical resources that BSC staff and production builder partners use for more detailed follow-up instruction or explanation. Used in concert, the Houses That Work elements provide a comprehensive and detailed technical resource on climate-specific residential construction. Our New Hygro-Thermal Regions Climate-specific design and construction of high-performance homes is a cornerstone of all BSC work. With BSC input, Building America recently modified the criteria and North American climate map defining the...
