Accordingly, those originals have been collected and examined, and the syntactical phenomena in question arranged according to the usual categories. With each mood and tense as thus classified have been compared the representatives of it, more or less exact, which appear in Cicero s translations. The translations of Cicero, as distinguished from his original writings, are usually printed as an appendix in the standard editions. The edition of Baiter and Kayser has perhaps the most complete list, though a search through the entire Ciceronian corpus reveals a few more passages which appear to have been translated from extant originals. At this point, two questions are to be considered; first, to what extent do the parallel passages in Greek authors cited by the commentators represent Cicero s originals, and second, what are we to call the Ciceronian norm of translation. It will be seen that the answer to the first question depends very largely upon our answer to the second. From Cicero s own words little or no information can be gained as to what degree of exactness he considered a translation ought to possess; and hence it has seemed expedient to note the general character of the translations so far as closeness of rendering is concerned, and in the absence of direct testimony from Cicero himself to adopt as an original whatever Greek passage is close enough to a Ciceronian passage...
